

## Keep Delaware beautiful starting in Your Backyard

- Always pick up your doggie's doo! Doggie doo can wash into our streams and rivers and introduce disease-causing bacteria.
- Pick up litter from your yard and storm drains.
- Use natural products whenever possible! Toxic substances like insect sprays and moth balls should be used as little as possible
- Plant more trees and flowers! It will make your yard more beautiful, and make it more difficult for chemicals to reach waterways.
- Recycle as much as possible! Have an item you don't know where to recycle? Check out the website below.

### FOR MORE INFORMATION:

For more information on places you can recycle your motor oil, contact your local service station, hazardous waste collection program or call The Citizens Response Line at 1-800-404-7080.

Learn more about motor oil and other types of recycling at

[www.earth911.com](http://www.earth911.com)

## What else can I do to help prevent oil pollution?

- Check your vehicle for oil leaks and drips on a regular basis. When you find a leak, fix it promptly.
- Collect oil in containers with a tight fighting lid. Old milk jugs are perfect!
- Never dump motor oil, antifreeze or other engine fluids down the storm drain or into the ground.
- Wash your car at a car wash that filters water, this will prevent oil from you car to enter the ground water
- Use ground cloths under your vehicle whenever doing engine repair. Clean up all spills that happen in a timely manner.

### Have you seen someone dumping oil?

Report it at [www.302stoppit.org](http://www.302stoppit.org)  
or call 302-786-7748

**For emergencies,** contact DNREC  
Emergency Response at 1-800-662-8802
